Tour description

The hotel Lily Country Club is surrounded by the Miklagard golf course just outside the center of Kløfta. From this point there are good opportunities for bicycling trips in the local area.

You will cross highway E16 by the underpass and after a short time you come to Ullensaker church, which is beautifully situated on a hill with a view of the surrounding area. The bicycle route follows Wergelandsveien on low-traffic asphalt roads.

Those who want another alternative can bicycle “Den Wingerske Kongeveg” on the north side of the church. It eventually turns into a narrow path - which is bicycle able but watch out for walkers. The path is rough, but after a couple of kilometres it enters the asphalt road again.

The area is characterized by agriculture with farms and fields on all sides. The route runs in open countryside and is slightly hilly. There are no major challenges along the road but be careful where the route meets Trondheimsveien to the south. You cross an occasionally busy road. The pedestrian- and bicycle path takes you further in the direction to Kløfta, with shopping center and pleasant cafes.

You cross the train line with its own underpass, and it goes through residential area back to the hotel.
